	26/12/2018	22:22	4.75m			
	04/01/2018	21:33	4.74m			
	31/01/2018	21:14	3.68m			

The highest tides listed - often referred to as king tides - are the highest spring tides that occur during summer and winter. Boat owners and people living along the waterfront should be vigilant at the times of these highest tides particularly in the summer, as storms and cyclones may elevate tidal levels significantly above the predicted tide heights.
