	13/01/2020	22:08	4.64m			
	13/01/2020	23:35	3.72m			
	09/02/2020	21:38	3.71m			

The highest tides listed - often referred to as king tides - are the highest spring tides that occur during summer and winter. Boat owners and people living along the waterfront should be vigilant at the times of these highest tides particularly in the summer, as storms and cyclones may elevate tidal levels significantly above the predicted tide heights.
